**SURYAJYOTI LIFE INSURANCE COMPANY LIMITED**  
**Notes to the Financial Statements for Ashwin end, 2082**

**1 General Information**

Surya Jyoti Life Insurance Company Limited (herein after referred to as the 'Company') is a public limited company formed by the merger of erstwhile Surya Life Insurance Co. Ltd. and Jyoti Life Insurance Co. Ltd. and started its joint operation from December 22, 2022. The registered office of the Company is located at Biratnagar while the company operates from its corporate office at Shanta Plaza, Gyaneshwor, Kathmandu and through its branches spread across the country. The Company's share are listed on Nepal Stock Exchange Limited. The principal activities of the Company are to provide various life insurance products including participating and non-participating products through its province offices, branches, sub-branches, and network of agents.

**2 Basis of Preparation**

The Interim Financial Statements have been prepared in accordance with the Nepal Accounting Standard (NAS)-34 "Interim Financial Reporting" published by the Nepal Accounting Standards Board (NASB) and pronounced by The Institute of Chartered Accountants of Nepal (ICAN). The disclosures made in the condensed consolidated interim financial information have been limited based on the format prescribed by Nepal Insurance Authority (NIA) and should be read in conjunction with the company's last annual financial statements as at and for the year ended 32 Asar 2079. They do not include all of the information required for a complete set of Nepal Financial Reporting Standards ("NFRS") financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Bank's financial position and performance since the last annual financial statements. The financial statements have been prepared in accordance with the historical cost convention with some exceptions described in the relevant sections. The interim cash flow statement has been prepared using the direct method whereby operating profit is adjusted for effects of non-cash transactions such as depreciation and loan losses. The cash flow is classified by operating, investing and financing activities. The Condensed Interim Financial Statements comprise of:

- ◎ Condensed Statement of Financial Position,
- ◎ Condensed Statement of Profit or Loss,
- ◎ Condensed Statement of Other Comprehensive Income,
- ◎ Condensed Statement of Changes in Equity,
- ◎ Condensed Statement of Cash Flows
- ◎ Condensed Statement of Distributable Profit or Loss,
- ◎ Notes to Interim Financial Statements
- ◎ Other Indicators as per NIA circular

**3 Statement of Compliance**

The Financial Statements of the Company comprises of Statement of Financial Position, Statement of Profit or Loss and Statement of Other Comprehensive Income shown as two separate statements, Statement of Changes in Equity, Statement of Cash Flows and Notes to the Financial Statements which have been prepared in accordance with the Nepal Financial Reporting Standards (NFRS) issued by the Nepal Accounting Standards Board (ASB) and in compliance with the requirements of the Companies Act, 2006, directives issued by Nepal Insurance Authority and required disclosures as per Securities Board of Nepal. The format used in the preparation and presentation of the Financial Statements and disclosures made therein also complies with the specified formats prescribed in the directives of Nepal Insurance Authority.

**SURYAJYOTI LIFE INSURANCE COMPANY LIMITED**  
**Notes to the Financial Statements for Ashwin end, 2082**

**(c) Basis of Measurement**

The Financial Statements have been prepared on the historical cost basis except for following Assets & Liabilities which have been measured at Fair Value amount:

- i. Certain Financial Assets & Liabilities which are required to be measured at fair value
- ii. Defined Employee Benefits
- iii. Insurance Contract Liabilities which are required to be determined using actuarial valuation for Liability Adequacy Test (LAT).

Historical cost is generally Fair Value of the consideration given in exchange for goods & services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

In addition, for Financial Reporting purposes, Fair Value measurements are categorized into Level 1, or 2, or 3 based on the degree to which the inputs to the Fair Value measurements are observable & the significance of the inputs to the Fair Value measurement in its entirety, which are described as follows:

- Level 1 - Inputs are quoted prices (unadjusted) in active markets for identical Assets or Liabilities that the entity can access at the measurement date;
- Level 2 - Inputs are inputs, other than quoted prices included within Level 1, that are observable for the Asset or Liability, either directly or indirectly; and
- Level 3 - Inputs are unobservable inputs for the Asset or Liability.

**5 Use of Estimates**

The preparation of these Financial Statements in conformity with NFRS requires management to make estimates, judgements and assumptions. These estimates, judgments and assumptions affect the reported balances of Assets & Liabilities, disclosures relating to Contingent Liabilities as at the date of the Financial Statements and the reported amounts of Income & Expenses for the years presented. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Changes in estimates are reflected in the Financial Statements in the period in which changes are made and, if material, their effects are disclosed in the Notes to the financial statements.

**6 Functional and Presentation Currency**

These Financial Statements are presented in Nepalese Rupees (NPR) which is the Company's functional currency. All financial information presented in NPR has been rounded to the nearest rupee except where indicated otherwise.

**7 Going Concern**

The financial statements are prepared on a going concern basis. The Board of Directors have considered a wide range of information relating to present and future conditions, including future projections of profitability, cash flows and capital resources while assessing the going concern basis. Furthermore, Board is not aware of any material uncertainties that may cast significant doubt upon Company's ability to continue as a going concern and they do not intend either to liquidate or to cease operations of it.

## 8 Changes in Accounting Policies

Accounting policies are the specific principles, bases, conventions, rules and practices applied by the Company in preparing and presenting financial statements. The Company is permitted to change an accounting policy only if the change is required by a standard or interpretation; or results in the financial statements providing reliable and more relevant information about the effects of transactions, other events or conditions on the entity's financial position, financial performance, or cash flows.

## 3 Significant Accounting Policies

This note provides a list of the significant policies adopted in the preparation of these Financial Statements.

### (a) Goodwill and Intangible Assets

#### i) Recognition

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses. Internally generated intangibles, excluding capitalized development costs, are not capitalized and the related expenditure is reflected in Statement of profit or loss in the year in which the expenditure is incurred. However, Company has not internally generated any assets.

Subsequent expenditure on intangible assets is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

#### ii) Amortization

The useful lives of intangible assets are assessed to be either finite or indefinite. An intangible asset shall be regarded as having an indefinite useful life when, based on an analysis of all of the relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflow for the entity.

Useful Life of Intangible Assets based on SLM/ DBM is categorised as stated below:

List of Asset Categories	Useful Life (In Years) for SLM
Softwares	7 Years or Licensed Period
Licenses	License Period
Others (to be Specified)	Not Any

However, Company has not acquired any license till end of reporting period.

#### iii) Derecognition

An Intangible Asset is derecognised when no Future Economic Benefits are expected to arise from the continued use of the Asset. Any Gain or Loss arising on the derecognition is determined as the difference between the sales proceeds and the carrying amount of the Asset and is recognized in the Statement of Profit or Loss. However, Company has not derecognised any intangible asset till end of reporting period.

### (b) Property and Equipment (P&E)

#### i) Recognition

Freehold land is carried at historical cost and other items of property and equipment are stated at cost of acquisition or construction less accumulated depreciation when, it is probable that future economic benefits associated with the item will flow to the Company and it can be used for more than one year and the cost can be measured reliably. Company does not have freehold land as on reporting date.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it meets the recognition criteria as mentioned above. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

#### ii) Depreciation

Depreciation on Property and Equipment other than Freehold Land i.e. the Company's Freehold Building, Plant & Machinery, Vehicles & Other Assets is provided on "Straight Line Method (SLM)" based on Useful Life estimated by technical expert of the management.

The Assets Useful Life and Residual Values are reviewed at the Reporting date and the effect of any changes in estimates are accounted for on a prospective basis.

Useful Life of Property, Plant and Equipment based on SLM is categorised as stated below:

List of Asset Categories	Useful Life (In Years) for SLM
Buildings	50
Leasehold Assets	5 Years or Lease Period
Furniture & Fixtures	10
Computers and IT Equipments	5
Office Equipment	5
Vehicles	10
Other Assets	5

Company however does not have any building as on reporting date.

**iii) Derecognition**

The carrying amount of an item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising on de-recognition of an asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognized in profit or loss in the year the asset is derecognized.

**(c) Deferred Tax Assets and Liabilities**

Deferred Tax Assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible Temporary difference and the carry forward of unused tax credits and unused tax losses can be utilized.

Deferred Tax Liabilities are generally recognized for all taxable Temporary Difference.

The carrying amount of Deferred Tax Assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the Deferred Tax Asset to be utilized.

**(e) Financial Assets**

**i) Initial Recognition & Measurement**

Financial Assets are recognized when, and only when, the Company becomes a party to the contractual provisions of the Financial Instrument. The Company determines the classification of its Financial Assets at initial recognition.

When Financial Assets are recognized initially, they are measured at Fair Value, plus, in the case of Financial Assets not at fair value through profit or loss, transaction costs that are attributable to the acquisition of the Financial Asset. Transaction costs of Financial Assets carried at Fair Value through Profit or Loss are expensed in the Statement of Profit or Loss.

**ii) Subsequent Measurement**

**a) Financial Assets carried at Amortized Cost (AC)**

A Financial Asset is measured at amortized cost if it is held within a business model whose objective is achieved is to hold the asset in order to collect contractual cash flows and the contractual terms of the Financial Asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Interest income in these financial assets is measured using effective interest rate method.

**b) Financial Assets at Fair Value through Other Comprehensive Income (FVTOCI)**

A Financial Asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling Financial Assets and the contractual terms of the Financial Asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. These financial assets are measured at fair value and changes are taken to statement of other comprehensive income.

**c) Financial Assets at Fair Value through Profit or Loss (FVTPL)**

A Financial Asset which is not classified in any of the above categories are measured at FVTPL

**iii) De-Recognition**

A Financial Asset is derecognized only when the Company has transferred the rights to receive cash flows from the Financial Asset. Where the Company has transferred an Asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the Financial Asset. In such cases, the Financial Asset is derecognized. Where the Company has not transferred substantially all risks and rewards of ownership of the Financial Asset, the Financial Asset is not derecognized. Where the Company retains control of the Financial Asset, the Asset is continued to be recognized to the extent of continuing involvement in the Financial Asset.

**iv) Impairment of Financial Assets**

The Company assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, there is objective evidence of impairment as a result of one or more events that has occurred since the initial recognition of the asset (an incurred 'loss event') and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that a financial asset or a group of financial assets is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

**(e) Reinsurance Assets**

Reinsurance assets are the assets which are created against insurance contract liabilities of the amount which are recoverable from the reinsurer. These assets are created for the reinsurer's share of insurance contract liabilities.

A reinsurance asset is impaired if there is objective evidence, as a result of an event that occurred after the initial recognition of the reinsurance asset, that the Company may not receive all amounts due to it under the terms of the contract, and the event has a reliably measurable impact on the amount that the company will receive from the re-insurer. If a reinsurance asset is impaired, the company reduces the carrying amount accordingly and is recognized in statement of profit or loss.

**(f) Cash & Cash Equivalent**

Cash & Cash Equivalents includes Cash In Hand, Cheques in Hand, Bank Balances and short term deposits with a maturity of three months or less. There are however no short term deposits at the end of reporting period.

**(g) Financial Liabilities**

**i) Initial Recognition & Measurement**

Financial Liabilities are recognized when, and only when, the Company becomes a party to the contractual provisions of the Financial Instrument. The Company determines the classification of its Financial Liabilities at initial recognition.

All Financial Liabilities are recognized initially at Fair Value, plus, in the case of Financial Liabilities not at fair value through profit or loss, transaction costs that are attributable to the issue of the Financial Liability.

**ii) Subsequent Measurement**

After initial recognition, Financial Liabilities are subsequently measured at amortized cost using the Effective Interest Method.

For trade and other payables maturing within one year from the date of Statement of Financial Position, the carrying amounts approximate Fair value due to short maturity of these instruments.

**iii) De-Recognition**

A Financial Liability is de-recognized when the obligation under the liability is discharged or cancelled or expires. When an existing Financial Liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the Statement of Profit or Loss.

**(h) Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount is reported in the Statement of Financial Position where there is legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

**(i) Equity**

Financial Instruments issued by the Company are classified as Equity only to the extent that they do not meet the definition of a Financial Liability or Financial Asset.

**(j) Gross Insurance Contract Liabilities**

**Liability adequacy**

At each reporting date, the Company reviews its unexpired risk and a liability adequacy test is performed to determine whether there is any overall excess of expected claims and deferred acquisition costs over unearned premiums. The calculation uses current estimates of future contractual cash flows after taking account of the investment return expected to arise on assets relating to the relevant life insurance technical provisions. If these estimates show that the carrying amount of the unearned premiums is inadequate, the deficiency is recognized in the statement of profit or loss by setting up a provision for liability.

**(k) Employee Benefits**

**i) Short Term Obligations**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the Statement of Financial Position.

**ii) Post - Employment Benefits**

**- Defined Contribution Plan**

The Company pays Provident Fund contributions to publicly administered Provident Funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contribution are recognized as Employee Benefit Expense when they are due.

**- Defined Benefit Plan**

For Defined Benefit Plan , the cost of providing benefits is determined using the Projected Unit Credit Method, with Actuarial Valuations being carried out at each Statement of Financial Position. Actuarial Gains & Losses are recognized in the Other Comprehensive Income in the period in which they occur. Past service cost is recognized immediately to the extent that the benefits are already vested and otherwise is amortized on a Straight Line Basis over the average period until the benefits become vested. The retirement benefit obligation recognized in the Statement of Financial Position represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost, as reduced by the Fair Value of plan Assets (If Any). Any Asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the plan.

**iii) Long Term Employee Benefits**

The liabilities for un-availed earned leaves are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. Leave Encashment has been computed using Actuarial Assumptions and these are measured at the present value of expected future payments to be made in respect of services provided by employees up to the end of the year using the Projected Unit Credit Method. The benefits are discounted using the market yields at the end of the year that have terms approximating to the terms of assumptions.

**iv) Termination**

Termination benefits are payable when employment is terminated by the Company before the normal retirement date, or when an employee accepts voluntary retirement in exchange of these benefits. The Company recognises termination benefits at the earlier of the following dates:

- a) when the Company can no longer withdraw the offer of those benefits; and
- b) when the entity recognises costs for a restructuring that is within the scope of NAS 37 and involves the payment of termination benefits.

The termination benefits are measured based on the number of employees expected to accept the offer in case of voluntary retirement scheme.

**(I) Revenue Recognition**

**i) Gross Premium**

Gross premiums are recognised as soon as the amount of the premiums can be reliably measured. First premium is recognised from inception date. At the end of the financial year, all due premiums are accounted for to the extent that they can be reliably measured.

**ii) Unearned Premium Reserves**

Unearned premiums are those proportions of premiums written in a year that relate to periods of risk after the reporting date. Unearned premiums are calculated on a pro rata basis. The proportion attributable to subsequent periods is deferred as a provision for unearned premiums.

**iii) Commission Income**

Commission Income is recognised on accrual basis. If the income is for future periods, then they are deferred and recognised over those future periods.

**iv) Investment income**

Interest income is recognised in the statement of profit or loss as it accrues and is calculated by using the EIR method. Fees and commissions that are an integral part of the effective yield of the financial asset are recognised as an adjustment to the EIR of the instrument. Investment income also includes dividends when the right to receive payment is established.

**(m) Benefit, Claims and Expenses**

**i) Gross Benefits and Claims**

Benefits and claims includes the cost of all claims arising during the year, including external claims handling costs that are directly related to processing and settlements of claims. Benefits and claims that are incurred during the financial year are recognised when a claimable event occurs and/or the insurer is notified. Death, surrender and other benefits without due dates are treated as claims payable, on the date of receipt of intimation of death of the assured or occurrence of contingency covered.

**ii) Reinsurance Claims**

Reinsurance claims are recognised when the related gross insurance claim is recognised according to the terms of the relevant contracts.

**iii) Commission Expenses**

Commission expenses are recognized on accrual basis. If the expenses is for future periods, then they are deferred and recognized over those future periods.

**iv) Service Fees**

Service fees are recognized on accrual basis as per the rates mentioned in Insurance act, 2079.

**v) Finance Cost**

Finance costs are recognized for the period relating to unwinding of discount and interest expenses due to re-measurement of liabilities.

**(n) Product Classification**

Insurance contracts are those contracts when the Company (the insurer) has accepted significant insurance risk from another party (the policyholders) by agreeing to compensate the policyholders if a specified uncertain future event (the insured event) adversely affects the policyholders. As a general guideline, the Company determines whether it has significant insurance risk by comparing benefits paid with benefits payable if the insured event did not occur. Insurance contracts can also transfer financial risk.

The Company has following portfolios under which it operates its business:

**i) Endowment** - This is a with profit plan that makes provisions for the family of the Life Assured in event of his early death and also assures a lump sum at a desired age on maturity. It costs moderate premiums, has high liquidity and is savings oriented. This plan is apt for people of all ages and social groups who wish to protect their families from a financial setback that may occur owing to their demise.

**ii) Anticipated** - This scheme provides for specific periodic payments of partial survival benefits during the term of the policy itself so long as the policy holder is alive. It is therefore suitable to meet specified financial requirements needed for occasions like Brata bandha, Academic Graduations etc. An important feature of plan is that in the event of death at any time within the policy term, the death claim comprises full sum assured without deducting any of the survival benefit amounts, which have already been paid. It is also with profit plan.

**iii) Endowment Cum Whole Life** - This plan is a combination of Endowment Assurance and Whole Life with profit plan. It provides financial protection against death throughout the lifetime of the life assured with the provision of payment of a lump sum at the maturity of the policy to the assured in case of his survival.

**iv) Whole Life** - Whole life is a type of life insurance contract that provides insurance coverage of the contract holder for his or her entire life. Upon the inevitable death of the contract holder, the insurance payout is made to the contract's beneficiaries. These policies also include a savings component, which accumulates a cash value. This cash value is one of the key elements of whole life insurance.

**iv) Foreign Employment Term** - The main objective of foreign employment term is providing insurance for financial assistance if there is death or elimination of any insured due to work or staying abroad.

**iv) Other Term** - Term life insurance, also known as pure life insurance, is life insurance that guarantees payment of a stated death benefit during a specified term. Once the term expires, the policyholder can renew it for another term, convert the policy to permanent coverage, or allow the policy to terminate.

**v) Special Term** - Special Term insurance is a modified version of term insurance with added benefits.

**vi) Others to be Specified** - Life insurance policies other than above mentioned products are classified as others.

**(o) Cash Flow Statement**

Cash Flows are reported using the direct method, whereby major classes of cash receipts and cash payments are disclosed as cash flows.

**(p) Income Taxes**

Income Tax Expense represents the sum of the tax currently payable & Deferred Tax.

**i) Current Tax**

Current Tax Expenses are accounted in the same period to which the revenue and expenses relate. Provision for Current Income Tax is made for the Tax Liability payable on Taxable Income after considering tax allowances, deductions and exemptions determined in accordance with the applicable tax rates and the prevailing tax laws.

**ii) Deferred Tax**

Deferred Tax is recognized on temporary differences between the carrying amounts of Assets & Liabilities in the Statement of Financial Position and their Tax Base. Deferred tax Assets & Liabilities are recognized for deductible and taxable temporary differences arising between the tax base of Assets & Liabilities and their carrying amount in Financial Statements, except when the Deferred Income Tax arises from the initial recognition of goodwill, an Asset or Liability in a transaction that is not a business combination and affects neither accounting nor taxable Profits or Loss at the time of the transaction.

**(q) Provisions, Contingent Liabilities & Contingent Assets**

**(i) Provisions**

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, for which it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate to determine the present value is a Pre-Tax Rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

Provisions for Contingent Liability are recognized in the books as a matter of abundant precaution and conservative approach based on management's best estimate. However, Management believes that chances of these matters going against the company are remote and there will not be any probable cash outflow.

**(ii) Contingent Liabilities**

Contingent liabilities are recognized only when there is a possible obligation arising from past events due to occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made. Obligations are assessed on an ongoing basis and only those having a largely probable outflow of resources are provided for.

**(iii) Contingent Assets**

Contingent assets where it is probable that future economic benefits will flow to the Company are not recognized but disclosed in the Financial Statements.

**(r) Functional Currency & Foreign Currency Transactions**

The Financial Statements of the Company are presented in Nepalese Rupees, which is the Company's Functional Currency. In preparing the Financial Statements of the Company, transactions in currencies other than the Company's Functional Currency i.e. Foreign Currencies are recognized at the rates of exchange prevailing at the dates of the transactions.

**(s) Earnings Per Share**

Basic Earning per share is calculated by dividing the profit attributable to owners of the company by the Weighted Average Number of equity shares outstanding during the Financial Year.

For diluted earning per share, the weighted average number of ordinary shares in issue is adjusted to assume conversion of all dilutive potential ordinary shares.

**(t) Operating Segment**

Operating Segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM) as defined by NFRS 8, "Operating Segment".

Company's Income & Expenses including interest are considered as part of un-allocable Income & Expenses which are not identifiable to any business segment. Company's Asset & Liabilities are considered as part of un-allocable Assets & Liabilities which are not identifiable to any business.

**Disclosure as per Section 84(3) of Insurance Act, 2079****1. Solvency Ratio related disclosure:**

The Solvency Ratio for the year ended Asadh 31, 2081 is declared as 2.47 which is above the requirements prescribed by Nepal Insurance Authority

**2. Reinsurance related disclosure:**

The Company purchases reinsurance as part of its risks mitigation programme. Premium ceded to the reinsurers is in accordance with the terms of the programmes already agreed based on the risks written by the insurance companies. Recoveries from reinsurers on claims are based on the cession made in respect of each risk and is estimated in a manner consistent with the outstanding claims provisions made for the loss. Although we mitigate our exposures through prudent reinsurance arrangements, the obligation to meet claims emanating from policy holders rests with the Company. Default of reinsurers does not negate this obligation and in that respect the Company carries a credit risk up to the extent ceded to each reinsurer. The Company currently has treaties with Nepal Re and Himalayan Re in Nepal and Hannover Re in Malaysia for the reinsurance arrangements.
